Introduction to Results & Key Priorities

A Decade of
Sustainable
Returns

Introductory remarks

High quality earnings with clear strategy for continued growth

1

Defensive capital structure with low-cost fixed debt, little interest rate risk, and active debt management

2

Value-added power price strategy of short-term PPAs to maximise power prices achieved

3

Active management across the entire value chain through integrated O&M, Asset Management and Development business

4

Proprietary pipeline of high quality, value accretive development opportunities to support future growth

5

Disciplined capital deployment, targeting only high-quality investments with suitable return profiles through new developments and acquisitions of operational portfolios

Priorities

Capital allocation priorities in a closed market

1

Reduce the RCF: find an appropriate strategy to sell down assets to achieve liquidity

2

Keep momentum in the business: maximise development pipeline value for shareholders

3

Management of the discount to NAV: share buybacks

Capital allocation strategy

A multi-layered approach

Strategic partnership with GLIL Infrastructure established

Enabling investment momentum through the acquisition of a 247MW operational portfolio and collaboration of future investment into a subset of BSIF's AR5 CfD solar pipeline.

Sale of assets to facilitate capital recycling

Provisional agreement to divest a 50% stake in a portfolio of over 100MW of BSIF's operational solar assets providing additional liquidity whilst equity markets remain depressed.

Share buybacks for accretive investment opportunities

Board has allocated £20 million for a share buyback programme to enable the Company to benefit from a period of excessive share price discounts.

Capital allocation strategy

A challenging market backdrop

- Equity market conditions have remained challenging with high base rates compressing yield spreads.
- The Fund is well positioned through its defensive capital structure and proprietary pipeline to continue to successfully navigate challenging market conditions

BSIF share price premium/discount to NAV

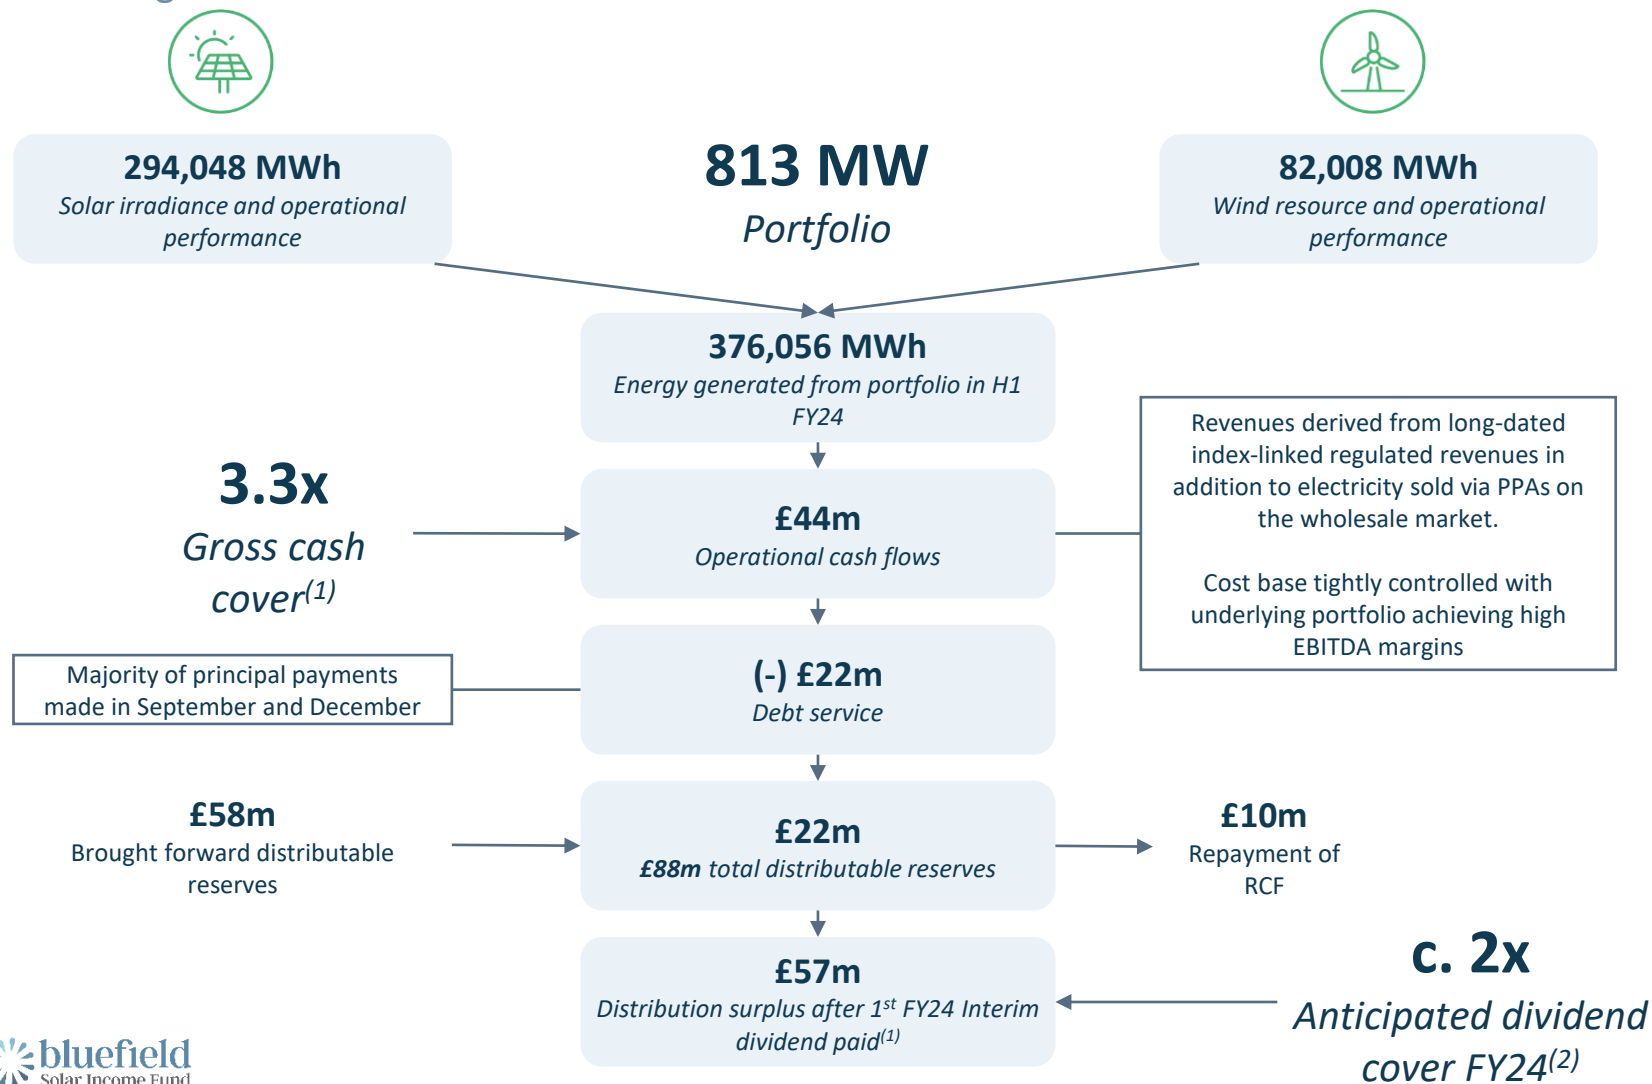

Interim Results Highlights

A Decade of
Sustainable
Returns

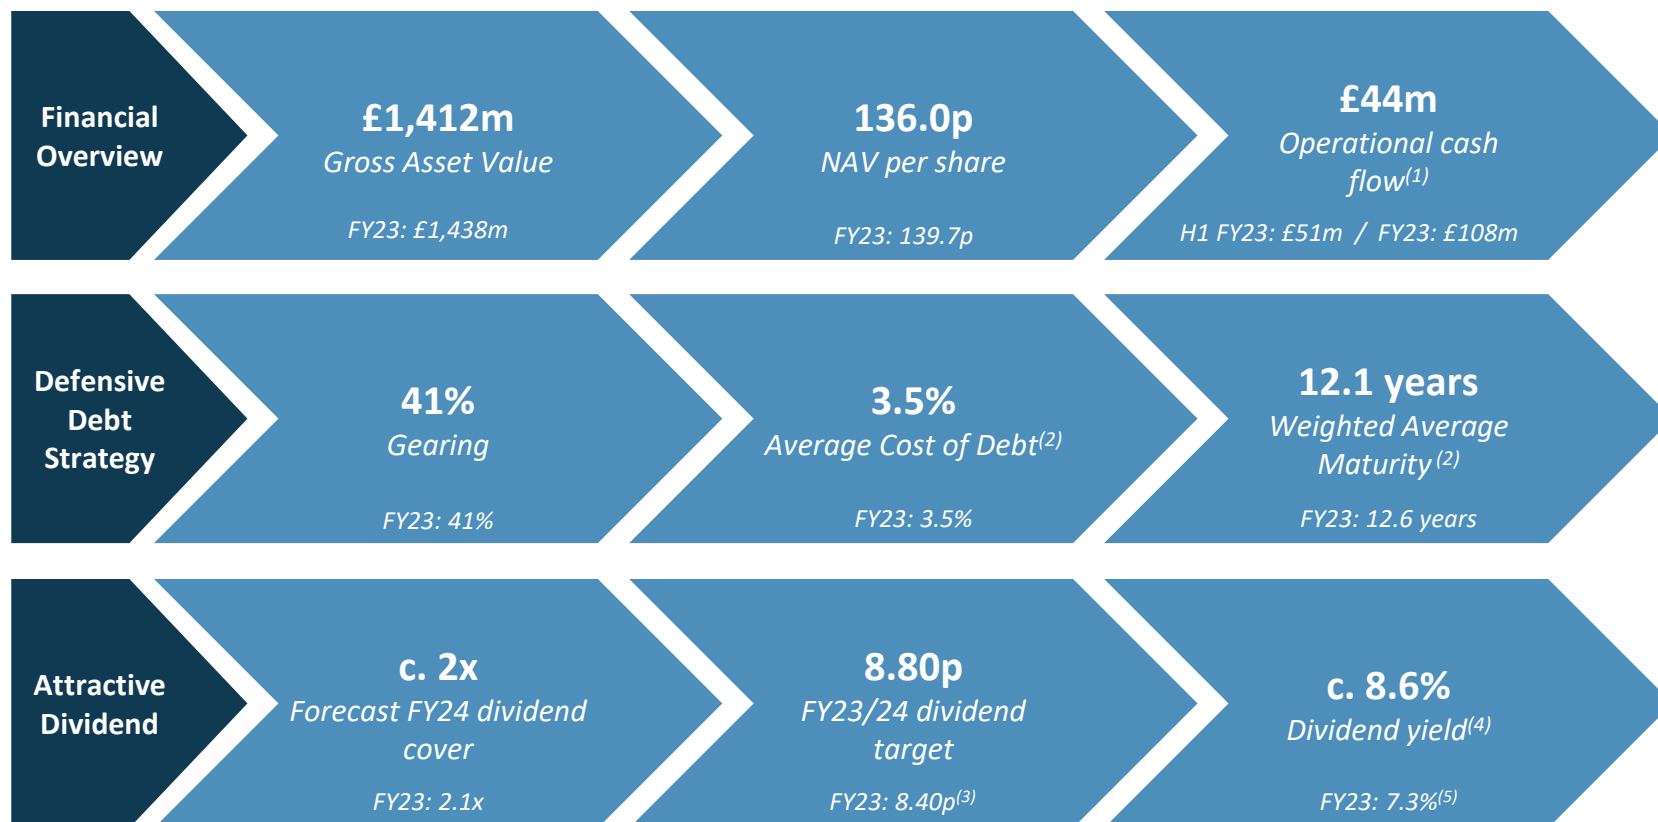

Simple business model

Converting irradiance and wind resource to shareholder dividends

Key financial highlights

Overview of the key financial metrics for H1 FY24

Portfolio overview

Robust UK renewable asset portfolio with high visibility of income

Key Highlights

Geography

Subsidy Split⁽¹⁾

All operational assets in the portfolio receive subsidies

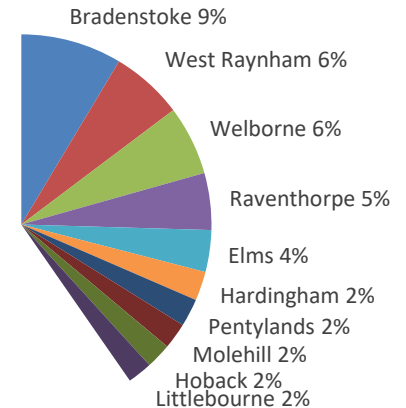

Technology Mix⁽²⁾

Solar focus with some wind to offer complementary generation profile

Limited Asset Concentration Risk

40%
Top 10 assets by capacity

Notes: (1) Split by capacity; all operational projects have subsidy-backed revenues; (2) Split by capacity; (3) for solar portfolio only, FiT tariffs converted to equivalent ROC banding

Portfolio revenue mix

Highly fixed, inflation-linked revenues with limited power price risk

- Fixed revenue makes up 66% of total revenue out to 2034 on a discounted basis.
- Fixed revenues are projected to increase from the completion of construction of CfD-backed projects. The additional fixed revenues included in the chart below are from our AR4 projects.

High Proportion of Fixed, Inflation-Linked Revenues (£m) for 10+ Years⁽¹⁾

Notes: (1) As at 31 Dec 2024

Dividend track record

Steady, growing dividend with high visibility of future cash flows

Valuation, Capital Structure, & Active Management

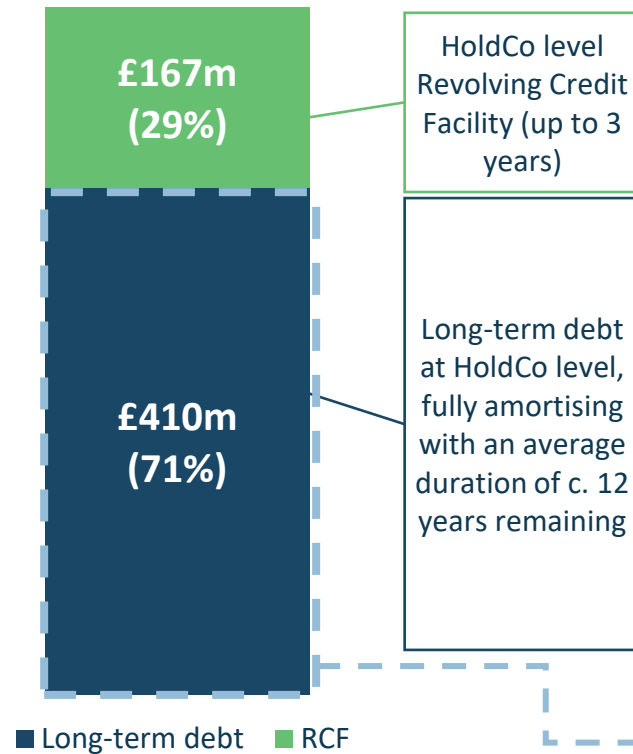

A Decade of
Sustainable
Returns

Capital Structure

Consistently defensive debt strategy since IPO

Breakdown of debt by structure

£577m

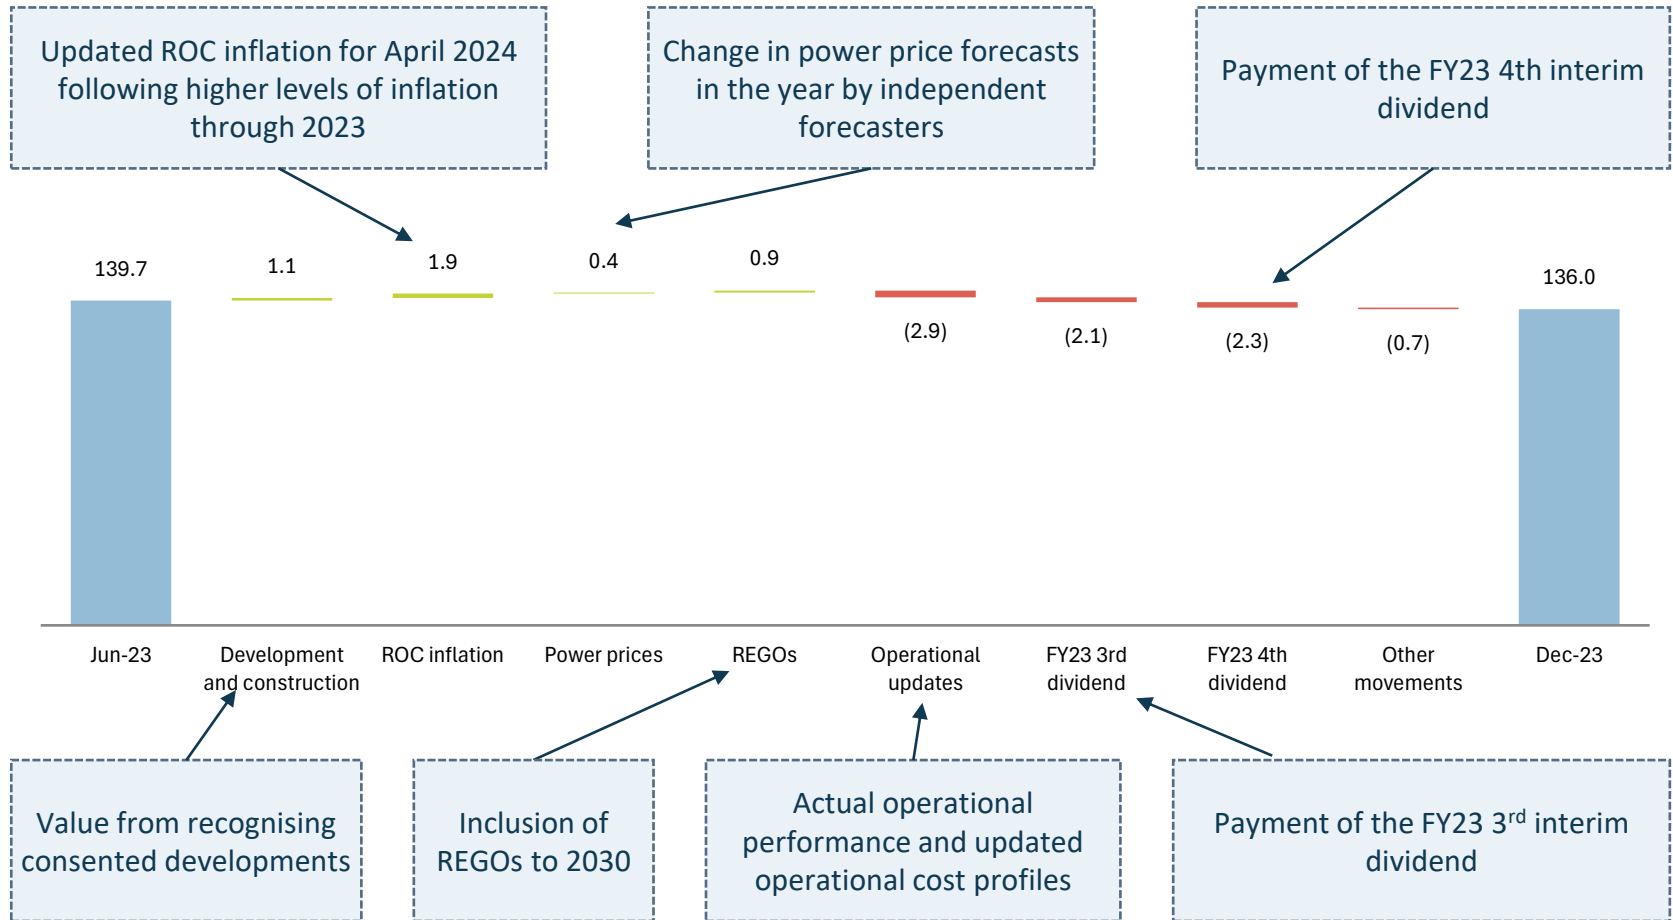

Breakdown of long-term debt:

£410m at all in cost of 3.5%

NAV bridge: 6-month period

Positive impact of inflation offset by dividend payments

Active management

Proactive and innovative approach to enhance shareholder value

Value enhancement

Specialist teams established over the past decade to deliver an aligned, dedicated and diversely skilled workforce to an increasingly complex business

PPA strategy

Power sales optimisation underpinning strong earnings

- Power sales strategy of securing short-term PPAs smooths out the volatility in electricity markets
- Competitive tender processes run regularly for fixed and floating price contracts, with flexibility to secure contracts for varying durations, typically 6-30 months, to maximise value

Fixed PPAs at Attractive Levels vs Forecast Power Prices⁽¹⁾

Highly Fixed Short-Term Revenues (PPAs and Subsidies)⁽²⁾

Future pipeline, ESG, & Regulatory Outlook

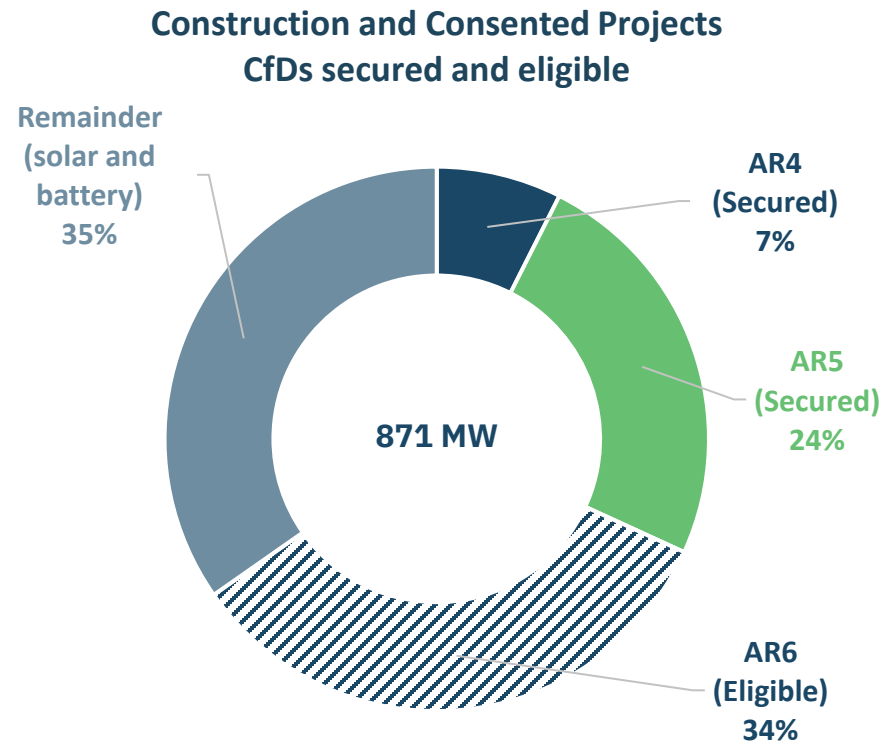

A Decade of
Sustainable
Returns

Development and construction strategy

227MW of planning permissions secured during the period

- The current value of the construction projects and consented projects in the BSIF valuation is £95.6m.
- The development pipeline offers both capital recycling opportunities (through disposals of projects) and future investment opportunities (with subsidised and unsubsidised revenue streams).

ESG strategy

Renewable Energy, Delivered Responsibly

Company ESG Strategy

- Material ESG risks and opportunities are reflected within the Company's ESG strategy: a framework through which the Company delivers value for its stakeholders, and which will support delivery of long-term returns for shareholders

CLIMATE CHANGE MITIGATION

Supporting the UK in achieving its Net Zero Carbon ambition whilst aligning to the TCFD recommendations

PIONEERING POSITIVE LOCAL IMPACT

Enhancing nature and encouraging community engagement at the local level throughout the asset lifecycle

GENERATING ENERGY RESPONSIBLY

Driving ethical practices within our operations and throughout our supply chain

Energy Regulatory Environment

Supporting the journey to net zero

Contracts for Difference (CfD) low-carbon support scheme

- Engaged in the Department for Energy Security and Net Zero (DESNZ) consultation on proposed amendments for AR7 and future rounds

Fixed Price Certificates (FPCs)

- Participating in DESNZ led workshops related to the minded transition from Renewable Obligation Certificates to FPCs anticipated in late 2020s

Electricity Generator Levy (EGL)

- The UK EGL is still legislated to remain in force until 31 March 2028 for operational plants
- Confirmation the EGL would no longer apply to solar projects constructed post November 2023

Bluefield Group

Differentiated, end-to-end platform

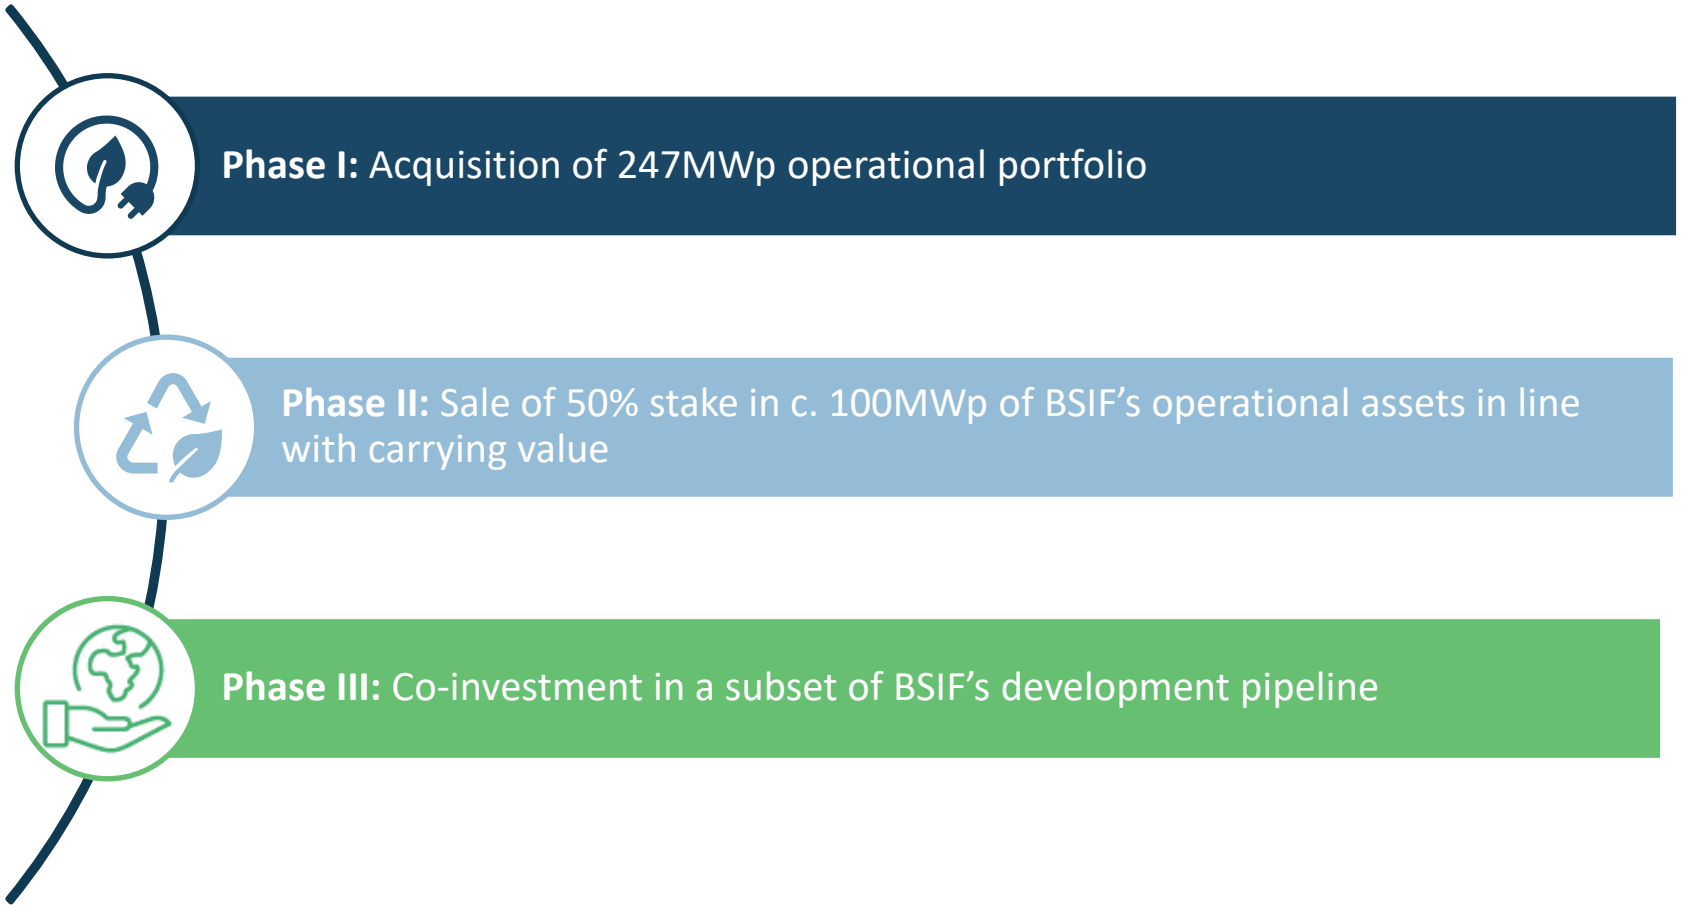

Construction projects

93MW of solar PV progressing through construction

- Partnered with two contractors with deep experience in the UK solar market (Bouygues Energies & Services and EQUANS) for the delivery of the projects
- The Bluefield Group progressed the site to ready-to-build status, oversaw construction, and performed a full ESG assessment of procurement and supply chain processes, providing services across the full lifecycle
- Close collaboration with ecologists and archaeologists ensured that the solar farms have been constructed in a considerate manner
- Both sites are expected to be fully operational in the first half of 2024 and will add c. 11% to the Fund's generating capacity

Phased partnership with GLIL

Capital allocation strategy

Disciplined approach to the deployment of capital

- The Company has focussed on making high quality investments with attractive returns that complement the existing portfolio, deploying over £1,000m since IPO.
- This has allowed the company to develop a material and accretive proprietary primary pipeline whilst continuously evaluating opportunities to acquire operational portfolios.
- The operational cashflows from these investments has led to a dividend surplus, and the ability to reinvest cashflows into our proprietary pipeline.

Notes: (1) Investment value on left-hand Y axis includes leverage; (2) Excludes post period-end transactions; (3) Includes construction projects; (4) £13.4m (2.20 pence per share) announced Jan-24

Capital structure

Overview of debt

- The below shows a detailed breakdown of BSIF's external debt
- A high proportion of debt has a fixed interest rate meaning the relatively low cost of debt is “locked in”
- No imminent maturity dates for external debt and all external debt⁽¹⁾ is amortising, limiting refinancing risk
- Several debt tranches held at HoldCo level above the underlying assets, resulting in less stringent lender requirements for PPAs, allowing BSIF to take advantage of a more flexible PPA strategy and access more competitive pricing
